

## CLAIMS

What is claimed is:

1. A method for establishing a virtual university, comprising the steps of:  
5 connecting a virtual university server and one or more users;  
selecting a destination within the virtual university server to interact with the one or more users;  
coupling the one or more users through the virtual university server based on the selected destination; and  
establishing interaction parameters for the one or more users based on the selected destination.  
10
2. A method for establishing a virtual university as recited in claim 1, wherein the destinations include a virtual student union where users can interact using a bulletin board or other collaborative functions.
3. A method for establishing a virtual university as recited in claim 1, wherein the 15 destinations include a virtual library where a user can use resources, consult with a virtual librarian, search for resources and collaborate with one or more other users.
4. A method for establishing a virtual university as recited in claim 1, wherein the destinations include a virtual administration office where a user can register for courses, search a directory, utilize a class locator, consult with the administration help desk, add a course, drop a course and utilize a career center.  
20

5. A method for establishing a virtual university as recited in claim 1, wherein the destinations include a virtual classroom where a user can learn, view a directory of other students in a class, view materials, grades, announcements, homework, review old tests, administer tests, ask questions of an instructor, enter a breakout room, review lectures, view the class schedule and view research topics.
6. A method for establishing a virtual university as recited in claim 1, wherein the destinations include a university directory that provides information on persons and entities associated with the university.
7. A method for establishing a virtual university as recited in claim 1, wherein tests are applied to the users.
- 10 8. A method for establishing a virtual university as recited in claim 1, wherein any two users can collaborate in the virtual university.
9. A method for establishing a virtual university as recited in claim 1, wherein grades are distributed electronically.
- 15 10. An apparatus for establishing a virtual classroom, comprising:  
logic that connects a virtual university server and one or more users;  
logic that selects a destination within the virtual university server to interact with the one or more users;  
logic that couples the one or more users through the virtual university server based on the  
20 selected destination; and  
logic that establishes interaction parameters for the one or more users based on the selected destination.

11. A computer program embodied on a computer-readable medium that establishes a virtual classroom, comprising:
  - 5 a code segment that connects a virtual university server and one or more users;
  - a code segment that selects a destination within the virtual university server to interact with the one or more users;
  - a code segment that couples the one or more users through the virtual university server based on the selected destination; and
  - a code segment that establishes interaction parameters for the one or more users based on the selected destination.
- 10 12. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein the destinations include a virtual student union where users can interact using a bulletin board or other collaborative functions.
13. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein the destinations include a virtual library where 15 a user can use resources, consult with a virtual librarian, search for resources and collaborate with one or more other users.
14. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein the destinations include a virtual administration office where a user can register for courses, search a directory, utilize a class locator, 20 consult with the administration help desk, add a course, drop a course and utilize a career center.

15. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein the destinations include a virtual classroom where a user can learn, view a directory of other students in a class, view materials, grades, announcements, homework, review old tests, administer tests, ask questions of an instructor, enter a breakout room, review lectures, view the class schedule and view research topics.

5

16. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein the destinations include a university directory that provides information on persons and entities associated with the university.

10 17. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein tests are applied to the users.

18. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein any two users can collaborate in the virtual university.

15 19. A computer program embodied on a computer-readable medium that establishes a virtual classroom as recited in claim 11, wherein grades are distributed electronically.
